

Genesis: In The Beginning

February 19, 2020

Introduction To The Book Of Genesis:

Genesis is the book of beginnings, thus the name Genesis. The first part of the book focuses on the creation of all things, including mankind. It further details the fall of mankind and the spread of sin throughout the entire world. The culmination of rampant sin is detailed in the destruction of all things, including humans, with the exception of eight people, the family of Noah. The second part of the book focuses on God's dealing with one man, Abraham, and his descendants. Through Abraham God promised that He would bring salvation and blessing to the world. Abraham and his descendants learn firsthand that it is wise to trust and obey God. Moses is believed to be the author of Genesis.

Dreams Of Pharaoh: **Genesis 41. 1-57**

Joseph Second In Command: **vv. 37-46**
